An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for June is 3.3 percent, one and four-tenth percentage points below the national rate of 4.7 percent, Craig E. Hartzer, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during May 2001 was 3,010,000.

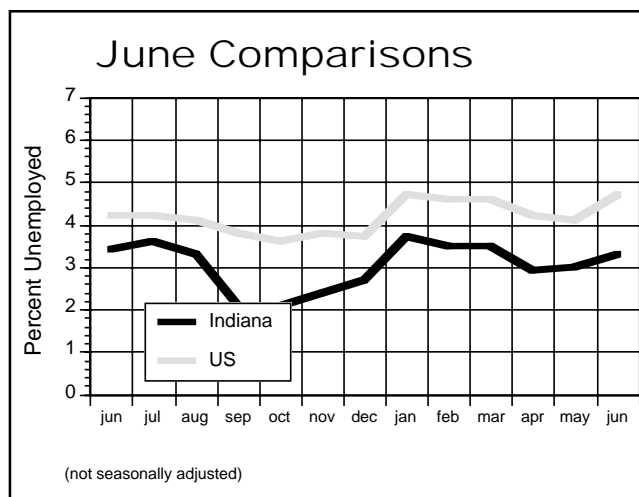

Indiana's June unemployment rate was lower than Illinois, 5.5 percent; Ohio, 4.4 percent; Kentucky, 5.0 percent and, Michigan 4.2 percent.

"Indiana experienced a slight increase in its unemployment rate for the month of June. While we have had some growth in various job categories, we are still concerned about the loss of 27,000 manufacturing jobs over the past year," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,994,100, a decrease of 30,200 from one year ago. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 668,400 in June, a decrease of 26,800 from last year. Motor vehicle manufacturing accounts for 95,700 jobs, 8,100 less than one year ago. Manufacturing of motor vehicle parts totals 61,500. Industrial machinery manufacturing in June accounts for 72,300 Hoosier jobs, 100 less than May.

Construction employment totals 161,800 an increase of 3,500 from last month. Of that, heavy construction reports 19,800 jobs, an increase of 300 from May.

(over)

Service producing employment totals 2,157,700 in June, 4,300 less than last year. Transportation and public utilities total 148,900, or 300 more than May.

Retail trade totals 559,600, 8,400 less than a year ago. Of that, general merchandise stores report employment of 80,200, or 2,700 less than last year. Service sector employment, such as business services, computer and data processing, totals 763,400 in June, which is 6,800 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,113,700 in June 2001. An estimated 3,010,000 Hoosiers are employed and 103,700 are unemployed.

Indiana's labor force for June 2000 totaled 3,119,200. Hoosiers employed one year ago is estimated at 3,012,400, and June 2000 unemployed in Indiana totaled 106,800. Indiana's estimated unemployment rate one year ago was 3.4 percent, compared with the national unemployment rate of 4.2 percent in June 2000.

Industry Payroll Employment

Selected Categories	June 2001	Change from May 2001	Change from June 2000
Goods Producing	836,400	+6,500	-25,900
• Construction	161,800	+3,500	+900
• Manufacturing	668,400	+2,900	-26,800
Service Producing	2,157,700	-31,100	-4,300
• Retail Trade	559,600	+2,000	-8,400
